

Placement Rate Disclosures

The information below describes the placement rate outcomes that Midwestern Career College has reported on December 2025 to fulfill the requirements of the Council on Occupational Education (COE), the college's accrediting agency.

Timeframe, Data Source, and Methodology.

This rate is based on the program completers who completed the program between July 1, 2023 and June 30, 2024, and who (1) were employed in the field of instruction pursued, (2) entered the military, or (3) were continuing their education anytime between July 1, 2023 and December 10, 2025.

The career services department collects employment verification information from the students through a combination of follow-up surveys, alumni outreach, one on one career coaching, job search assistance, and externship to job placements. Employment information is also collected through communication with program directors and program faculty, external employer partners and via third-party verification services.
