

VACCINATION POLICY

Updated January 2026

Some programs at MCC may require proof of certain vaccinations or immunizations as part of the admission process. In addition, students in Allied Health programs must be able to provide documentation proving immunity (natural or artificial) to Measles, Mumps, Rubella, Varicella, Tuberculosis, and Hepatitis B, and/or be vaccinated against these diseases prior to being registered for clinical (externship) courses. Additional vaccinations and/or immunizations (Tdap, Flu vaccine, COVID-19 vaccine etc.) may be required for placement at certain clinical sites.
